### **COVID 19 ALERT**

Vector technology systems, LLC (VTS) is taking aggressive action to do its share in the war against Covid 19.

As a company involved in all facets of additive manufacturing, commonly called 3D printing and scanning, VTS is dedicating a vast amount of time and resources to help protect people against Covid 19. VTS provides most types of PPE. These include FDA approved N95 disposable masks, N95 reusable masks, with FDA approved filters, clear protective shields, ventilator parts, various other items of equipment, and custom make items. **VTS customizes products for juveniles as well.**

Special quotes for large orders.

VTS prices fairly. In these difficult times, our profit margins are minimized.

**To All State and Governmental Agencies: We Will Not Increase an Offer Once Made. We Will beat Any Bona Fide Offer by 5%.**

**Note:** if you cannot afford this equipment, then we will help. Email us at [info@vts.llc](mailto:info@vts.llc), and provide a brief explanation of your hardship. We will promptly provide you with an application. Provided that you qualify, then we will subsidize some or all of the purchase price.

VTS stands ready to assist anybody in addressing their needs during this difficult time.

**VTS GIVES BACK PROGRAM:** For every \$30 in receipts generated from the sale of PPE, we set aside \$1 toward the donation of our PPE products to people and companies who cannot afford to pay full price. VTS will do its share in protecting against this pandemic.
